PROFESSIONAL SUMMARY

Driven Software Engineer with 4+ years of experience specializing in C# development and SQL database management within the financial technology sector. Proven expertise in architecting ASP.NET API controllers and optimizing complex database systems to improve client delivery. Skilled in modernizing legacy C# codebases and utilizing SQL Server to generate high-level data insights for international banking clients.

SKILLS

Digital Platforms & Integrations: REST APIs, JSON/XML, Enterprise SaaS Platforms, Workflow Automation, SharePoint Online, ServiceNow, Azure DevOps, API-Driven Admin Systems

Back-End & Languages: C#, .NET Core, ASP.NET, SQL Server, Python, API Architecture, Data Modeling

Front-End & Frameworks: Angular, Angular Material, TypeScript, JavaScript, HTML, CSS

Tools & DevOps: Azure DevOps, GitHub, CI/CD Pipelines, Visual Studio, Postman, JFrog, Jira

Methodologies: Agile/Scrum, SDLC, Technical Documentation, QA Testing

PROFESSIONAL EXPERIENCE

FIS Global

Atlanta, GA

Software Engineer II

Jan 2026 – Jun 2026

- Assisted in the creation of 3+ robust API controllers and services using C# and ASP.NET to power new Angular-based administration platforms.
- Collaborated cross-functionally to resolve high-priority client ticket requests, leveraging C# debugging skills to reduce the backlog by 30%.
- Improved SLA compliance by 20% through efficient management of incident tickets and change requests within ServiceNow.
- Moved over to Angular and Angular Material using Visual Studio/ Visual Studio Code to develop new admin forms for multiple client banks using JSON, NPM, and JFrog to initialize, and TypeScript and CSS to develop. Created different components, models, services, and validators for different admin forms.

Software Engineer I

Jun 2024 – Jan 2026

- Developed and maintained core web application features using C# within Visual Studio, ensuring seamless integration with Microsoft Azure DevOps.
- Engineered complex SQL Server database queries to produce detailed reports and automated scheduled data exports for high-level clients.
- Led the technical modernization of the team's core product, upgrading the codebase and SQL database architecture from the 2017 to the 2025 model.

Technologist Engineer I

Jun 2022 – Jun 2024

- Utilized Microsoft SQL Server and Visual Studio to develop and debug critical application components for international banking systems.
- Maintained case management products by providing rigorous functional testing and managing local environments via IIS.
- Managed source control and CI/CD pipelines using Azure DevOps (formerly Team Foundation Server).

Outsource'd Consulting

Atlanta, GA

SharePoint Office 365 Administrator & Developer

Apr 2020 – Apr 2021

- Designed, developed, tested, deployed, and maintained internal SharePoint sites and custom applications for enterprise clients. Communicated project status in Agile standups and Scrum sessions using MS Teams.

Kennesaw State University, CCSE

Marietta, GA

Graduate Research Assistant

Jan 2021 – Dec 2021

- Collaborated on early AI research projects exploring conversational prompting to improve learning efficiency for students and faculty, reducing time spent on routine academic inquiries.

EDUCATION

Kennesaw State University, College of Computing & Software Engineering
M.S. in Software Engineering

Marietta, GA
June 2019 - Dec 2021

- Concentration: Software Engineering
- Relevant Coursework: Java, SQL, XML, Database Design, QA Testing, Git, Visual Studio

Georgia Institute of Technology, Ivan Allen College of Liberal Arts
B.S. in Literature, Media & Communications

Atlanta, GA
Aug 2012 - May 2016

- Concentration: Digital Media

PROJECTS and CERTIFICATIONS

FIS Innovate in 48 Hackathon

Atlanta, GA

Developer — AI Code Review & Documentation Tool

Aug 2025 - Aug 2025

- Built an AI-powered application using Python and Jira to automate code review, generate documentation, and create training materials.

KSU Hack-a-thon

Atlanta, GA

Designer & Developer — Non-Biased Employment App

Aug 2020 - Aug 2020

- Co-developed a healthcare risk assessment tool for policyholder analysis and recommendations.

Certificate of Computer Science - Kennesaw State University

Marietta, GA
May 2020
